RESEARCH INTERESTS

Research on making **deep learning** and **deep reinforcement learning** more interpretable and explainable is receiving much attention. One of the main reasons is the application of deep learning models to high-stake domains. Also, using explanations as a proxy for debugging models so that we could improve performance, learn new insights, and how we can leverage the explanations to reduce the number of parameters (e.g., **model's compression**, **knowledge distillation**). In general, interpretability is an essential component for deploying deep learning models. I'm interested in deep learning Explainability, Interpretability, Fairness, Robustness, and the application of **XAI** techniques. My current research focuses on developing **self-explainable** deep learning models capable of explaining their predictions (i.e., teaching machines to predict and explain simultaneously).

EDUCATION

PhD in Computing Science   Sep. 2016 - Nov 2022
University of Alberta   Edmonton, Canada
- Academic Supervisor: Prof. Randy Goebel
  Research project: Building a self-explainable deep neural network. Unlike traditional XAI techniques that employ post-hoc techniques to explain a black box. My work focuses on building deep interpretable models. Interpretable models are better because they can provide faithful explanations. In order to build such a model, we need to focus on constrained optimization problems, i.e., the predictive power is subject to the quality of the explanations. During my Ph.D., I worked on different problems to improve the levels of abstraction, such as feature attribution, contrastive explanations, rationale-based models, hierarchical explanations, and knowledge distillation.

MSc in Information Technology   2013 - 2015
Multimedia University   Melaka, Malaysia
- Academic Supervisor: Prof. Lau Siong Hoe
  Thesis title: Design and Evaluation of a Shoulder Surfing Resistant Authentication System.

Bachelor in Information Technology   2007 - 2011
Multimedia University   Melaka, Malaysia
- Thesis title: Face recognition using local graph structure.

WORK EXPERIENCE

Graduate Research Assistant   Sep 2019 - Present
Department of Computing Science, University of Alberta   Edmonton, Canada
- Carrying out research on the development of XAI techniques for deep learning at the XAI lab under the supervision of Prof. Randy Goebel.
- Supervisor: rgoebel@ualberta.ca

Machine Learning Engineer   Dec. 2019 - August 2022
Mitacs intern.   Edmonton, Canada
- Developed NLP models for legal domains, constructions (e.g., predictive models, semantic search, model in the loop, keyword extraction) and presented the findings to senior executive management.

- Developed NLP models to understand the legal cases in order to segment them in meaningful contexts.
- Worked on models compression to improve the inference speed (e.g., qunatization, TensorRT).
- Provided regular progress reports to manager both verbally and in writing, and turned data into further actionable decisions.
- Mitacs university supervisor: rgoebel@ualberta.ca

Research Assistant   Oct. 2018 - Feb. 2019
Department of Family medicine   University of Alberta, Canada
- Developed a tool to extract medical information from Electronic Medical Records.
- Contact: Marjan.Abbasi@albertahealthservices.ca

Research Assistant   2013 - 2015
Information security lab, Multimedia University   Edmonton, Canada
- Research on biometrics, computer vision and image processing.
- Supervisor: lau.siong.hoe@mmu.edu.my

RESEARCH ARTICLES

TEACHING

- ***CMPUT 174: Intro. to the Found. of Computation I***   *Fall 2017*
  Prof. Jörg Sander and Sadaf Ahmed's teaching assistant (TA) at the University of Alberta.

- ***CMPUT 414: Introduction to Multimedia Technology,***   *Fall 2019*
  Prof. Anup Basu's TA for the senior undergraduate level course at the University of Alberta

- ***CMPUT 101: Introduction to Computing,***   *Fall 2016*
  Prof. Janelle Harms's TA for the senior undergraduate level course at the University of Alberta

OTHER TALKS

- ***Research Poster at AI Week***   *May 2022*
  Presented a paper entitled "Self-explainable models in natural language processing" at AI Week in Edmonton, Canada.

- ***COLING 2020, Barcelona***   *Dec. 2020*
  Presented a paper entitled "RANCC: Rationalizing Neural Networks via Concept Clustering"(Online).

- ***ICIP 2027, China***   *Sept. 2017*
  Presented a paper entitled "acial expression using SVM classifier on salient mic-macro patterns"(ICIP, Beijing, China).

- ***Reverse EXPO***   *Feb. 2017*
  Presented a poster of the "An Introduction to Deep Visual Explanation" article to the audience of diverse background in Edmonton, Canada.

ACADEMIC SERVICE

- Reviewer for the Journal of Artificial Intelligence Research (JAIR), EMNLP 2020, ICDM 2020, ECML-PKDD 2020,2022.

- Local Arrangement Chair, The 2017 IEEE International Conference on Systems, Man, and Cybernetics. Oct 5-Oct 8. Banff, Canada.

- Maintaining the Explainable AI (XAI) lab website https://sites.ualberta.ca/~amiixai/.

TECHNICAL STRENGTH

- **Programming:** Python, C++, SQL, Matlab.

- **Frameworks:** Tensorflow, PyTorch, Keras, NLTK, OpenCV, Scikit-Learn, Pandas.

- **Databases:** MySQL

- **Other:** Linux Command Line, Bash Scripting, GitHub, Version Control

**HONORS &
AWARDS**

- **Highest performance on task 4 of the COLIEE competition** 2018, Japan.

- **GSA Travel Award** 2017, university of Alberta.

- Multimedia university **research scholar Award**.

- **Dean List**, Multimedia University.

- 2013 Infineon-MMU Technical Poster Session, Infineon, **Champion**.

- 2014 Infineon-MMU Technical Poster Session, Infineon, **Champion**.

- 2015 Infineon-MMU Technical Poster Session, Infineon, **1st Runner up**.

- Pecipta by Ministry of Education (MOE), **Best of the Best Award**,,International Conference and Exposition on Innovation of Institution of Higher Learning, Nov-2013,Kuala Lumpur Convention Centre, Malaysia.

- Pecipta by Ministry of Education (MOE), **Gold Award**,International Conference and Exposition on Innovation of Institution of Higher Learning, Nov-2013,Kuala Lumpur Convention Centre, Malaysia.

- **Korean Invention Academy Award**, Malaysia,International Conference and Exposition on Innovation of Institution of Higher Learning, Nov-2013,Kuala Lumpur Convention Centre.

- **ITEX Silver Award**, Malaysia,Invention Innovation Technology Exhibition (ITEX) 2013 by MINDS.

- WIC- **Gold Medal**,Seoul, South Korea,World Invention Innovation Contest (WIC) 5-6-June. 2015.

- **ITEX Silver Award**,Invention Innovation Technology Exhibition (ITEX) 2015 by MINDS,Kuala Lumpur Convention Centre, Malaysia.

- Pukyong National University, South Korea, **scholarship for Master of Science (declined)**.

- Multimedia university, **graduate research assistant for PhD, (Declined)**.

- C++ programming Competition, **2nd Runner up**, multimedia university, Melaka, Malaysia.
